Dermalex Scalp Psoriasis

Purified water, Alkaline earth minerals complex optimised for Scalp Psoriasis treatment, Modified Alumino-silicates, Glycerol, Cellulose gum, Octyldodecanol, Phytoshingosine, dehydroacetic acid, Benzoyl Alcohol

STERIOD FREE PSORIASIS TREATMENT

DERMALEX REPAIR PSORIASIS

New Dermalex offers a steroid-free cream that not only relieves your Psoriasis symptoms, but also a safer option.

HOW DERMALEX PSORIASIS WORKS

Unlike emollients (mainly rehydrate the skin) or steroids creams (mainly tackle the inflammation), Dermalex activates the skin's own repair mechanism.

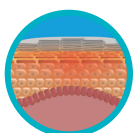

TREATMENT OPTIONS

A Steroid creams: mainly regulate the inflammation

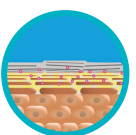

B Emollients: mainly restore hydration

C Dermalex:

Dermalex unique **Barrier Repair Accelerating Complex:**

1) **Repairs:** Skin Barrier Function. Dermalex's unique complex creates a semi-occlusive layer on top of the skin which locks in moisture and prevent moisture from escaping. $MgCl^2$ accelerates the skin recovery and repairs the skin's barrier function.

2) **Reduces:** Redness and Irritation. Dermalex helps provide an ionic environment that stimulates the skin's own repair mechanism and has a healing effect on the skin.

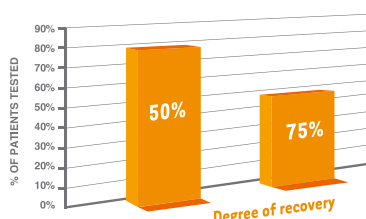

HOW TO USE DERMALEX PSORIASIS

Dermalex Psoriasis Cream	Dermalex Psoriasis Scalp Gel
Adults and Children 14Y+	Adults and Children 6Y+
Apply the cream twice daily to suitably cleansed skin and massage gently into the affected areas	Apply the scalp gel twice per day. Do not rinse. The gel is not visible in your hair and does not color or cause depigmentation

- Proven effective as a stand-alone treatment for mild and moderate psoriasis.
- Can be used in combination with other treatments.
- Safe to use over large body parts and over long periods of time.
- Fragrance and Steroid free, does not stain clothing

CLINICALLY PROVEN

Like all Dermalex products, Dermalex Psoriasis is specially formulated and clinically proven by dermatologists. Clinical studies have proven the efficacy and safety, showing reduction of scaling and itching in 2 weeks.
